Live simulation: Failure of productive computer center

Live simulation: Failure of productive computer center

1.0 Overview

On 24/25 September 2010, SIX x-clear will be conducting a life simulation of a failure of the productive computer center as part of its Business Continuity Planning (BCP).

2.0 Effective date

24/25 September 2010

3.0 Impact on participants

The live simulation is not expected to have any impact on the operating times and the scope of services offered by SIX x-clear. Short interruptions due to technical reasons might, however, cause certain services of SIX x-clear to be unavailable for a short period of time.

4.0 Details

To ensure the availability of all services in the event of a computer center failure, SIX x-clear is obliged to regularly test, verify and review the failure scenarios defined in the BCP.

The test will start on Friday, 24 September 2010 at 7:00 pm (CET) and will last until Saturday, 25 September 2010 at 12:00 noon (CET).

4.1 Systems concerned

The following systems and services may experience brief interruptions during the live simulation:

- SECOM
- webMAX Professional
- SIS Web Services – all services (e. g. Settlement, CCP Clearing, GFS, CAES, webBox, EVA, NaDa)
- ISIS (administration of pending tasks/ticket automation)
- All websites of the Securities Services division of SIX Group (SIX SIS, SIX x-clear, SIX SAG)

5.0 Contact
