## General Information

### 12.7 Fees SIS x-clear AG

SIS x-clear AG, a wholly-owned subsidiary of SIS Swiss Financial Services Group AG, started its business operations in May 2003. As Central Counterparty (CCP) for virt-x, SIS x-clear AG acts as a service provider in clearing and risk management.

The Central Counterparty assumes the following main tasks:

- Ensuring post-trade anonymity
- Eliminating bilateral counterparty risk between trade execution and settlement
- Settlement netting
- Risk management

Information on the Central Counterparty SIS x-clear is published under [www.ccp.sisclear.com](http://www.ccp.sisclear.com).

## General Information

Calculation of the risk premium is based on the average 3 days net exposure, which is determined BoD, three times a day (intraday) and EoD. The net exposure BoD/EoD is double weighted.

### Third-party costs

Third-party costs are passed on to clients. They are notified accordingly. At present, the following third party fees are known:

Fee type	Fee name	CSD	Rate in CHF	VAT
10'810	Third Party Fees	BE.100'519	4.85	0.00%

### Manual fees

For clearing fees that cannot be allocated to the above fee code the following fee type is applied:

Fee type	Fee name	VAT
10'910	Miscellaneous Clearing Fees (without VAT)	0.00%

## 12.9 Products

### 12.9.1 Risk management

#### Late settlement fee

For transactions that are not settled on the value date (failed settlements), SIS x-clear members are charged – in addition to the settlement fee – a **late settlement fee**. Depending on whether the automatic securities lending and borrowing facility (SLB) is used – detailed conditions see below – two different tariffs are applied.

Both tariffs apply for each settlement and each day, and a minimum fee is charged per day and per settlement. For amounts higher than CHF 50 m, each level must be passed through. The following fee code is used:

Fee type	Fee name	VAT
20'100	Late/Failed Settlement Fee (x-clear)	0.00%

# MarketGuide

## General Information

### Standard tariff (without automatic SLB):

Level	Fee	V <sub>U</sub> (in m)	V <sub>o</sub> (in m)
1.	0.10%		< 50
2.	0.05%	50	< 100
3.	0.03%	above 100	
<b>A minimum fee of CHF 150.00 is debited.</b>			

### Reduced tariff (with automatic SLB):

Level	Fee	V <sub>U</sub> (in m)	V <sub>o</sub> (in m)
1.	0.05%		< 50
2.	0.025%	50	< 100
3.	0.015%	above 100	
<b>A minimum fee of CHF 75.00 is debited.</b>			

### Conditions for reduced fees (with automatic SLB):

1. Settlement must take place at SIS.
2. The party in question must have set up automatic SLB and must fulfil all conditions for its use.
3. Settlement has failed due to a lack of securities, i.e. the respective member was unable to avert settlement failure.

If the standard tariff is applied (without automatic SLB), SIS x-clear passes on any costs arising for SLB. These costs incur regardless of whether a fee for late settlement is levied.

Fee type	Fee name	Rate	VAT
20'110	Borrowing to Cover Failed Settlements (x-clear)	SLB costs	0.00%

In the event of a so-called "gridlock situation", only the party actually (initially) responsible is debited. No further discounts are possible.
